

# Subject Index—Volume 27

No. 1, January, pp. 1-246  
 No. 2, February, pp. 247-484  
 No. 3, March, pp. 485-758

No. 4, April, pp. 759-1000  
 No. 5, May, pp. 1001-1276  
 No. 6, June, pp. 1277-1548

## A

- Acetylenic carbamate in childhood cancer, 1094
- Actinomycin D and vincristine, combined, in the treatment of patients with cancer, 613
- Adenocarcinoma(s)
  - and choriocarcinoma, of the esophagus, with gonadotropin secretion, 694
  - of the large intestine, the earlier diagnosis of, 143
  - renal—Regression of pulmonary metastases following irradiation of primary tumor, 936
- Adenoid cystic carcinoma of the uterine cervix, 1398
- Adenoma(s)
  - black, of the human adrenal cortex, 116
  - intra-oral sebaceous gland, 987
- Adrenal cortical carcinoma, conversion of virilization to feminization in a young girl with, 931
- Adrenalectomy
  - and 5-Fluorouracil, cyclophosphamide therapy in patients with advancing breast cancer following, 1342
  - in patients with metastatic cancer of the breast, prognostic factors affecting, 1106
- Aldolase isozyme patterns of human brain tumors, 223
- Alkaline phosphatase, Regan isoenzyme of, in cancer patients, new observations on the, 1388
- Alkylating agent, clinical trial of an, with a short half-life designed for intra-arterial chemotherapy, 369
- Allergy in patients with malignant lymphoma and chronic lymphocytic leukemia, a study of, 93
- Ameloblastoma, granular cell, ultrastructure of, 948
- Antibody(ies)
  - heterologous antilymphocyte, effects of, on the development of spontaneous and transplanted lymphoma in AKR mice, 1161
  - radiolabeled, localization of, to a mouse myeloma protein, studies on the, 1433
- Antigens, tumor-associated, in malignant melanoma after imidazole carboxamide therapy, disappearance of a, 411
- Apocrine metaplasia of fibrocystic disease of the breast, DNA content in, 643
- Appendix, vermiform, carcinoid tumor of the, with Cushing's syndrome, 681
- Arteriography, value of, in the diagnosis of benign and malignant bone lesions, 1134
- Astrocytoma, cloned, in tissue culture, ultrastructure of a, 1174

## B

- Biliary tract, carcinoma of the, complicating chronic ulcerative colitis, 356
- Bladder, human, papillary transitional cell carcinoma of the, proliferation and ultrastructure of, 71
- Blood, peripheral, in infectious mononucleosis, malignant potential of a cell line isolated from the, 651
- Blue nevus, cellular, of the scalp, invasion of the brain by a, 349
- Bone
  - hemangioma, hemangiopericytoma, and hemangioendothelioma (angiosarcoma) of, 1403
  - marrow, aspirated, in malignant lymphomas, superiority of histologic sections of, 618
  - marrow, colony-stimulating activity in sera of children with acute leukemia, 881
  - reticulum cell sarcoma of, treated by bacterial toxin therapy alone or combined with surgery and/or radiotherapy (47 cases) or with concurrent infection (5 cases), end results in, 524
- Brain
  - human, tumors, aldolase isozyme patterns of, 223
  - invasion of the, by a cellular blue nevus of the scalp, 349
- Breast
  - cancer, advanced, significance of ovarian metastasis in therapeutic oophorectomy for, 1374
  - cancer, cells, human, in primary tissue cultures, significance of autochthonous lymphocyte interactions with, 274
  - cancer, enigmatic behavior of, 7
  - cancer, human, a proposed histochemical and electron microscopic classification of, according to cell of origin, 288
  - cancer, metastatic, extended survival and remission rates in, 300
  - cancer, normocalcemic and hypercalcemic patients with, bone collagen and calcium metabolism in, 1099
  - cancer of the, in Taiwan, epidemiologic characteristics of, 1497
  - cancer, response to hormonal therapy, the thermoprofile as an early indicator of, 1379
  - cancers, bilateral, multiple primary tumors including, in a man with Klinefelter's syndrome, 1476

- carcinoma of the, human, *in vitro*—The effect of hormones, 1112
- ductular carcinoma of the, *in situ* and infiltrating lobular carcinoma, ultrastructure of, 18
- female, thermographic patterns of the, and their relationship to carcinoma, 819
- fibrocystic disease of the, DNA content in "apocrine metaplasia" of, 643
- metastatic cancer of the, prognostic factors affecting adrenalectomy in patients with, 1106
- nucleoside triphosphatase activity in the, 422
- Brenner tumor(s)
- a clinicopathologic study of 57 cases, 332
- fine structure of the, 1482
- proliferating, 687
- Bronchial artery infusion with anticancer agents in the treatment of osteosarcoma, 549
- Burkitt's lymphoma of the face and jaws, differential diagnosis of, 503
- Busulfan
- and cyclophosphamide in the treatment of chronic myelocytic leukemia, comparison of, 608
- therapy of chronic myelogenous leukemia, pulmonary lesions associated with, 1074
- C**
- Cancer(s)
- advanced, 418 cases of, combination chemotherapy for, 1089
- and leukemia, human, chromosomes and causation of—VI. Blast phase, cellular origin, and the Ph<sup>1</sup> in CML; VII. Significance of the Ph<sup>1</sup> in conditions other than CML, 176, 186
- apical lung, integrated irradiation and surgery in the treatment of, 1369
- breast, advanced, significance of ovarian metastasis in therapeutic oophorectomy for, 1374
- breast, advancing, cyclophosphamide therapy in patients with, following adrenalectomy and 5-Fluorouracil, 1342
- breast, bilateral, multiple primary tumors including, in a man with Klinefelter's syndrome, 1476
- breast, enigmatic behavior of, 7
- breast, human, a proposed histochemical and electron microscopic classification of, according to cell of origin, 288
- breast, metastatic, extended survival and remission rates in, 300
- breast, normocalcemic and hypercalcemic patients with, bone collagen and calcium metabolism in, 1099
- breast, response to hormonal therapy, the thermoprofile as an early indicator of, 1379
- childhood, acetylenic carbamate in, 1094
- endometrial, advanced, hydroxyprogesterone caproate therapy in, 485
- family "G" revisited: 1895–1970, 1505
- gynecologic, severe pain in—Trial of pentazocine, morphine, and a placebo, 842
- in Southern Iran, 965
- lung, among uranium miners, histologic types of, 515
- lung, attempts to induce in experimental animals by tobacco smoke, 51
- lung, lymphocyte transformation in, effect of therapeutic irradiation on, 1046
- lung, patients, brain and liver scans in the evaluation of, 362
- lung, reduction of risk of, smoking withdrawal in the, 865
- metastatic, and acute leukemia, clinical trials of 1- $\beta$ -D-arabinofuranosyl cytosine and 1-3-bis-(2-chloroethyl)-1-nitrosourea combination in, 1081
- metastatic, of the breast, prognostic factors affecting adrenalectomy in patients with, 1106
- of the breast, in Taiwan, epidemiologic characteristics of, 1497
- of the oropharynx, hypopharynx, and larynx, combination of preoperative irradiation and surgery in the treatment of, 759
- of the tongue: a study of the regional lymph node spread, 38
- patients, patients with non-neoplastic diseases, and normal subjects, effect of syngenic and allogeneic plasma on lymphocytes from, 1426
- patients, the Regan isoenzyme of alkaline phosphatase in, new observations on, 1388
- patients with, combined actinomycin D and vincristine in the treatment of, 613
- patients with, leukocyte candidacidal activity and resistance to systemic candidiasis in, 1211
- patients with, phytohemagglutinin (PHA)-induced transformation of lymphocytes from, 574
- regional lymph node in, studies concerning the—I. Initiation of immunity, 1001
- treatment of, with weekly intravenous 5-Fluorouracil—Study by the Western Cooperative Cancer Chemotherapy Group (WCCCG), 1302
- uterine, common, prognosis in the, influence of gravidity on, 1117
- Candidiasis, systemic, resistance to, and leukocyte candidacidal activity, in patients with cancer, 1211
- Carcinogenesis
- tobacco, a study of—XI. Tumor initiators, tumor accelerators, and tumor promoting activity of condensate fractions, 848
- viral, in venereally susceptible organs, 1493
- Carcinoid, stromal, of the ovary, with masculinization, 925
- Carcinoma(s)
- adenoid cystic, of the uterine cervix, 1398
- adrenal cortical, conversion of virilization to feminization in a young girl with, 931
- bladder, morphological changes in the ureter in cases of, 1267
- epidermoid cell, of the head and neck, distant metastases in, 304

- gastric and intestinal, neoplastic argentaffin cells in, 447
- gastric, and their regional lymph nodes, prognostic significance of microscopic structure of, 703
- head and neck, advanced, pre-irradiation 5-Fluorouracil infusion in, 768
- hepatocellular, with the carcinoid syndrome, 1182
- metastatic, to the lung, regional pulmonary function in, studied with xenon-133, 460
- of the biliary tract, complicating chronic ulcerative colitis, 356
- of the breast, ductular (in situ and infiltrating lobular carcinoma), ultrastructure of, 18
- of the breast, human, in vitro—The effect of hormones, 1112
- of the endometrium: A study of changing rates over a 15-year period, 1005
- of the pancreas, infantile type, 667
- of the posterior pharyngeal wall, radiotherapeutic management of, 894
- of the thyroid, occult sclerosing and frank papillary, nuclear DNA content of, 902
- papillary transitional cell, of the human bladder, proliferation and ultrastructure of, 71
- prostatic, enlargement of the supraclavicular lymph nodes as the initial sign of, 1055
- prostatic, SV40-transformed, in the hamster—Effect of hormonal manipulation on the growth rate, 469
- prostatic, testicular morphology and germ cell DNA synthesis in the testis of patients with, 919
- renal, lysosomal enzyme activity in liver tissue, kidney tissue, and tumor tissue from patients with, 278
- spontaneous C3H mammary, in the mouse and its syngeneic transplants, differences in growth and morphology between the, 635
- thermographic patterns of the female breast and their relationship to, 819
- Carcinosarcomas, and mixed mesodermal tumors of the ovary, 207
- Cell(s)
- argentaffin, neoplastic, in gastric and intestinal carcinomas, 447
- breast cancer, human, in primary tissue cultures, significance of autochthonous lymphocyte interactions with, 274
- derived from a human osteosarcoma, cultivation in vitro of, 397
- hybrid, in solid tumors, 455
- line, from a human salivary gland mixed tumor, 403
- line, isolated from the peripheral blood in infectious mononucleosis, malignant potential of a, 651
- myoepithelial, in the development of salivary gland tumors, role of, 1255
- Paget's, extramammary, fine structure of the, 1202
- syngeneic normal, mixed with tumor cells in vitro, facilitation of tumor growth by, 897
- tumor, circulating murine, bioassay of—A comparison between intravenous and intramuscular inoculation on tumor incidence, 56
- tumor, in vitro, syngeneic normal cells mixed with, facilitation of tumor growth by, 897
- Cervix
- uteri, precancerous lesions of the, chromosomes of, 1239
- uterine, adenoid cystic carcinoma of the, 1398
- Chemotherapy
- adjuvant, and radiotherapy, altered pattern of metastasis following treatment of Ewing's sarcoma with, 1051
- combination, for 418 cases of advanced cancer, 1089
- combination, with 5-(3,3-dimethyl-1-triazeno)imidazole-4-carboxamide (NSC-45388) and 5-Fluorouracil (NSC-19893), enhanced response of leukemic (L 1210) mice to, 1363
- intra-arterial, clinical trial of an alkylating agent with a short half-life designed for, 369
- of malignant hemangiopericytoma of childhood, 730
- of metastatic malignant melanoma, 1306
- Chondroblastoma, extraskeletal—A report of the first recorded case, 203
- Chondrosarcoma: Immune reactions of a patient to autologous tumor, 782
- Choriocarcinoma and adenocarcinoma, of the esophagus, with gonadotropin secretion, 694
- Chromosomes and causation of human cancer and leukemia—VI. Blastoc phase, cellular origin, and the Ph<sup>1</sup> in CML; VII. Significance of the Ph<sup>1</sup> in conditions other than CML, 176, 186
- Colitis, chronic ulcerative, carcinoma of the biliary tract complicating, 356
- Colon, neurofibromatosis of the—A unique manifestation of von Recklinghausen's disease, 134
- Congenital epulis (gingival granular cell tumor), ultrastructural observations on a, 674
- Cortex, human adrenal, black adenoma of the, 116
- Craniopharyngioma, ultrastructure of a, 1465
- Cushing's syndrome, carcinoid tumor of the vermiform appendix with, 681
- Cyclophosphamide
- and busulfan, in the treatment of chronic myelocytic leukemia, comparison of, 608
- and radiation therapy, in the treatment of hemangioendothelioma with disseminated intravascular clotting, 364
- in man and animals, activation of, 1512
- therapy in patients with advancing breast cancer following adrenalectomy and 5-Fluorouracil, 1342
- Cytomegalic inclusion disease, histiocytic medullary reticulosis associated with, 659

**D**

- Daunomycin, vincristine, and prednisone, in acute leukemia of childhood, 602  
Daunorubicin therapy, in advanced neuroblastoma, 831

**Disease**

- cervical neoplastic, an epidemiologic study of—  
Based on a self-selected sample of 7,000 women in Barbados, West Indies, 978  
cytomegalic inclusion, histiocytic medullary reticulosis associated with, 659  
fibrocystic, of the breast, DNA content in "apocrine metaplasia" of, 643  
Hodgkin's, adult, in Uganda, 1905  
Hodgkin's, staging of, clinicohistologic studies of 117 untreated patients subjected to laparotomy for the, 1277  
leukemic lymphoproliferative, spontaneous remission of, 586  
trophoblastic, nuclear DNA content of cyto- and syncytiotrophoblast in, a cytophotometric study of, 83

**DNA**

- germ cell, synthesis, in the testis of patients with prostatic carcinoma, and testicular morphology, 919  
nuclear, content of cyto- and syncytiotrophoblast in trophoblastic disease, a cytophotometric study of, 83  
nuclear, content of occult sclerosing and frank papillary carcinoma of the thyroid, 902  
Drug dosage and remission duration in childhood lymphocytic leukemia, 247  
Duodenum  
carcinoid-islet cell tumor of the, and associated multiple carcinoid tumors of the ileum, 910  
gangliocytic paragangliomas of the, 61

**E**

- Emetine hydrochloride (NSC 33669), as an anti-tumor agent, phase I experience with, 835  
Endometrium, carcinoma of the—A study of changing rates over a 15-year period, 1005  
Esophagus, choriocarcinoma and adenocarcinoma of the, with gonadotropin secretion, 694  
Ewing's sarcoma, treatment of, with radiotherapy and adjuvant chemotherapy, altered pattern of metastasis following, 1051  
Ewing's tumor, on the origin of, 257

**F**

- Fibroma(s)  
and thecoma of the ovary, classification of, 434  
digital, recurrent, of childhood, 1530  
5-Fluorouracil  
and adrenalectomy, cyclophosphamide therapy in patients with advancing breast cancer following, 1342  
intravenous, weekly, treatment of cancer with—  
Study by the Western Cooperative Cancer Chemotherapy Group (WCCCG), 1302

- pre-irradiation infusion, in advanced head and neck carcinomas, 768

**G**

- Gammopathy, monoclonal (IgM), lymphosarcoma of the lung with—A clinicopathologic histochemical, immunologic, and ultrastructural study, 1009  
Gonadotropin secretion, choriocarcinoma and adenocarcinoma of the esophagus with, 694

**H**

- Hand Schüller-Christian disease, lymph node ultrastructure in, 956  
Hashimoto's thyroiditis, extreme squamous metaplasia in, 434  
Hemangioendothelioma  
(angiosarcoma), hemangioma, and hemangioepithelioma of bone, 1403  
with disseminated intravascular clotting, cyclophosphamide and radiation therapy in the treatment of, 364  
Hemangioma, hemangioepithelioma and hemangioendothelioma (angiosarcoma) of bone, 1403  
Hemangioepithelioma  
hemangioma, and hemangioendothelioma (angiosarcoma) of bone, 1403  
malignant, of childhood, chemotherapy of, 730  
Hodgkin's disease  
adult, in Uganda, 1295  
chronic myelogenous leukemia in—Immunofluorescence of cells, 569  
elevated antibody titers to Epstein-Barr virus in, 416  
patients with, effect of prior splenectomy on hematologic tolerance during total lymphoid radiotherapy of, 471  
spinal cord compression in, treatment of, 308  
staging of, clinicopathologic studies of 117 untreated patients subjected to laparotomy for the, 1277  
survival in, prolongation of, 802  
terminating in acute lymphosarcoma cell leukemia—A metabolic study, 806  
vascular invasion in, further observations on the biologic significance of, 1  
Hydroxyprogesterone caproate therapy in advanced endometrial cancer, 485  
Hypercalcemia  
in chronic granulocytic leukemia, 872  
para-endocrine, in ovarian neoplasms, 427  
Hypofibrinogenemia and coagulation factor deficiencies with L-asparaginase treatment, 1313  
Hypopharynx, oropharynx, and larynx cancer of the, combination of preoperative irradiation and surgery in the treatment of, 759

**I**

- Ileum, associated multiple carcinoid tumors of the, and carcinoid-islet cell tumor of the duodenum, 910  
Imidazole carboxamide therapy, disappearance of a

- tumor-associated antigen in malignant melanoma after, 411  
in advanced malignant melanoma, 744  
Immunotherapy, lymphocyte, in experimental tumor systems, experiences with, 771  
Intestine, large, adenocarcinoma of the, the earlier diagnosis of, 143  
Irradiation and surgery in the treatment of apical lung cancer, 1369  
of primary tumor, regression of pulmonary, metastases following—Renal adenocarcinoma, 936  
on the maturation of Wilms' tumor, effect of, 812  
preoperative, and surgery, combination of, in the treatment of cancer of the oropharynx, hypopharynx, and larynx, 759  
preoperative, in prolonging concomitant immunity and preventing metastasis in mice, role of, 629  
splenic, and oral busulfan, a five-year survey with a comparison of—Management of chronic myeloid leukemia, 596  
therapeutic, on lymphocyte transformation in lung cancer, effect of, 1046  
Isopentenyl adenosine and phytohemagglutinin upon RNA syntheses in lymphocytes, 1384

**K**

- Kaposi's sarcoma  
lymph nodal, and chronic lymphocytic leukemia, associated with a hepatic nodule simulating Hodgkin's disease, 1419  
vasoactive substances in, 233  
Klinefelter's syndrome, multiple primary tumors including bilateral breast cancers in a man with, 1476

**L**

- Laparotomy for the staging of Hodgkin's disease, clinicopathologic studies of 117 untreated patients subjected to, 1277  
Larynx, oropharynx, and hypopharynx, cancer of the, combination of preoperative irradiation and surgery in the treatment of, 759  
Lasparaginase activity in vitro and in vivo, studies on neutralization of, 1321  
treatment, hypofibrinogenemia and coagulation factor deficiencies with, 1313  
Leiomyosarcoma, metastatic, simulation of right atrial myxoma by, 238  
Lesion(s)  
bone, benign and malignant, value of arteriography in the diagnosis of, 1134  
precancerous, of the cervix uteri, chromosomes of, 1239  
pulmonary, associated with busulfan therapy of chronic myelogenous leukemia, 1074  
Leukemia(s)  
acute and metastatic cancer, clinical trials of 1- $\beta$ -D-arabinofuranosyl cytosine and 1-3-bis-(2-

- chloroethyl)-1-nitrosourea combination in, 1081  
acute, bone marrow colony-stimulating activity in sera of children with, 881  
acute, depression of immunologic reactivity of patients with, 323  
acute lymphocytic, children with, at high risk for treatment failure, successful remission induction in, 1332  
acute lymphosarcoma cell, Hodgkin's disease terminating in—A metabolic study, 806  
acute, of childhood, vincristine, prednisone, and daunomycin in, 602  
acute, transformation of reticulum cell sarcoma to, 579  
and cancer, human chromosomes and causation of—VI. Blastic phase, cellular origin, and the Ph<sup>+</sup> in CML; VII. Significance of the Ph<sup>+</sup> in conditions other than CML, 176, 186  
and preleukemia, human, microchromosomes in, 160  
chronic granulocytic, hypercalcemia in, 872  
chronic granulocytic, responding to melphalan, 284  
chronic lymphocytic, and lymph nodal Kaposi's sarcoma, associated with a hepatic nodule simulating Hodgkin's disease, 1419  
chronic lymphocytic, and malignant lymphoma, a study of allergy in patients with, 93  
chronic lymphocytic, suppression of, by polycythemia vera, 1337  
chronic myelocytic, busulfan and cyclophosphamide in the treatment of, comparison of, 608  
chronic myelogenous, busulfan therapy of, pulmonary lesions associated with, 1074  
chronic myelogenous, in Hodgkin's disease—Immunofluorescence of cells, 569  
chronic myeloid, management of—A five-year survey with a comparison of oral busulfan and splenic irradiation, 598  
L1210, immunologic response of mice bearing, 1356  
lymphocytic, childhood, drug dosage and remission duration in, 247  
myelomonocytic—An historical review and perspectives, 1218  
myelomonocytic—Disorderly proliferation of all marrow cells, 1221  
Liver  
primary malignant tumors of the, 7  
primary reticulum cell sarcoma of, 1489  
Lung  
benign clear cell tumor ("sugar tumor") of the, 712  
cancer, among uranium miners, histologic types of, 515  
cancer, apical, integrated irradiation and surgery in the treatment of, 1369  
cancer, attempts to induce in experimental animals by tobacco smoke, 51

- cancer, lymphocyte transformation in, effect of therapeutic irradiation on, 1046
  - cancer, patients, brain and liver scans in the evaluation of, 362
  - cancer, reduction of risk of, smoking withdrawal in the, 865
  - lymphosarcoma of the, with monoclonal (IgM) gammopathy—A clinicopathologic, histochemical, immunologic, and ultra-structural study, 1009
  - metastatic carcinoma to the, regional pulmonary function in, studied with xenon-133, 460
  - Lymphadenopathy due to infectious mononucleosis: its confusion with malignant melanoma, 1029
  - Lymphangiosarcoma, postmastectomy—Ultrastructural observations, 100
  - Lymph node(s)
    - regional, and gastric carcinomas, prognostic significance of microscopic structure of, 703
    - regional, studies concerning the—I. Initiation of immunity, 1001
    - supraclavicular, as the initial sign of prostatic carcinoma, enlargement of the, 1055
  - Lymphocyte(s)
    - autochthonous, interactions with human breast cancer cells in primary tissue cultures, significance of, 274
    - immunotherapy, in experimental tumor systems, experiences with, 771
    - phytohemagglutinin (PHA)-induced transformation of, from patients with cancer, 574
    - RNA syntheses in, effects of isopentenyl adenosine and phytohemagglutinin upon, 1384
    - transformation in lung cancer, effect of therapeutic irradiation on, 1046
  - Lymphoma
    - Burkitt's, of the face and jaws, differential diagnosis of, 503
    - malignant, and chronic lymphocytic leukemia, a study of allergy in patients with, 93
    - malignant, apparent chemotherapeutic cure of, 887
    - malignant, a report of five cases of superior mediastinal compression caused by, 193
    - malignant, aspirated bone marrow in, superiority of histologic sections of, 618
    - spontaneous and transplanted, development of, in AKR mice, effects of heterologous anti-lymphocyte antibody on the, 1161
  - Lymphosarcoma
    - localized and regional, of childhood, therapy of, 1328
    - of the lung with monoclonal (IgM) gammopathy—A clinicopathologic histochemical, immunologic, and ultrastructural study, 1009
- M**
- Mediastinum, malignant schwannomas of the, 1190
  - Melanoma
    - malignant, advanced, imidazole carboxamide therapy in, 744
    - malignant, disappearance of a tumor-associated antigen in, after imidazole carboxamide therapy, 411
    - malignant, genetic factor in, 1262
    - malignant, metastatic, chemotherapy of, 1306
  - Melphalan, chronic granulocytic leukemia responding to, 284
  - Metaplasia, extreme squamous, in Hashimoto's thyroiditis, 434
  - Metastasis(es)
    - altered pattern of, following treatment of Ewing's sarcoma with radiotherapy and adjuvant chemotherapy, 1051
    - bloodborne, size distribution of, significance of the, 379
    - distant, in epidermoid cell carcinoma of the head and neck, 304
    - extrathoracic, evidence of, and malignant thymoma associated with myasthenia gravis, 823
    - in mice, role of preoperative irradiation in prolonging concomitant immunity and preventing, 629
    - ovarian, in therapeutic oophorectomy for advanced breast cancer, significance of, 1374
    - pulmonary, regression of, following irradiation of primary tumor—Renal adenocarcinoma, 936
  - Microchromosomes in human preleukemia and leukemia, 160
  - Middle ear and mastoid, rhabdomyosarcoma of the, 29
  - Mononucleosis
    - infectious, lymphadenopathy due to—Its confusion with malignant melanoma, 1029
    - infectious, malignant potential of a cell line isolated from the peripheral blood in, 651
  - Mucosa, colonic, carbohydrate-rich compounds in the—I. Histochemical characteristics of normal and adenomatous colonic mucosa; II. Histochemical characteristics of colonic adenocarcinomas, 120, 128
  - Myasthenia gravis associated with malignant thymoma, and evidence of extrathoracic metastases, 823
  - Myeloma
    - multiple, long-term follow-up and therapy in, 44
    - protein, mouse, studies on the localization of radiolabeled antibodies to a, 1433
  - Myxoma(s)
    - multiple intramuscular—Another extraskelatal manifestation of fibrous dysplasia, 1167
    - right atrial, simulation of, by metastatic leiomyosarcoma, 238
  - Myxovirus in human sarcomas, electron microscopic observations on structures resembling, 1449
- N**
- Neoplasia, ovarian, modal DNA value and chromosome number in—A clinical and histopathologic assessment, 1064

- Neoplasm(s)  
  metastatic, spinal cord compression by, role of surgery in the treatment of, 558  
  ovarian, para-endocrine hypercalcemia in, 427  
Neuroblastoma  
  advanced, daunorubicin therapy in, 831  
  a proposed staging for children with, 374  
Neuroblasts and ganglion cells, grown in vitro, comparison of pheochromocytes with, 1148  
Neurofibromatosis of the colon—A unique manifestation of von Recklinghausen's disease, 134

## O

- Oophorectomy, therapeutic, for advanced breast cancer, significance of ovarian metastasis in, 1374  
Oropharynx, hypopharynx, and larynx, cancer of the, combination of preoperative irradiation and surgery in the treatment of, 759  
Osteosarcoma  
  human, cultivation in vitro of cells derived from a, 397  
  intracellular branched tubular structures in, 1440  
  treatment of, bronchial artery infusion with anticancer agents in the, 549  
Ovary  
  carcinosarcomas and mixed mesodermal tumors of the, 207  
  fibroma and thecoma of the, classification of, 434  
  papillary serous tumors of the, electron microscopic study of, 1455  
  strumal carcinoid of the, with masculinization, 925  
  teratomas of the, an intense clinicopathologic study of 305, 343

## P

- Paget's cell, extramammary, fine structure of the, 1202  
Pancreas, carcinoma of the, infantile type, 667  
Paragangliomas, gangliocytic, of the duodenum—A report of 2 cases with light and electron microscopic examination, 61  
Pelvis, extragonadal endodermal sinus tumor (yolk sac tumor) of the, 391  
Pharyngeal wall, posterior, carcinoma of the, radiotherapeutic management of, 894  
Pheochromocytes, comparison of, with ganglion cells and neuroblasts grown in vitro, 1148  
Phytohemagglutinin and isopentenyl adenosine upon RNA syntheses in lymphocytes, effects of, 1384  
Plasma, syngeneic and allogeneic, effect of, on lymphocytes from cancer patients, patients with non-neoplastic diseases, and normal subjects, 1426  
Plasmacytoma, extramedullary, of stomach, 562  
Polycythemia vera, suppression of chronic lymphocytic leukemia by, 1337  
Polyps, gastric—Histologic types and their relationship to gastric carcinoma, 1346  
Prednisone, vincristine, and daunomycin, in acute leukemia of childhood, 602

- Purines, urinary, 7-methylguanine and other—Values for normal subjects from Israel, Gaza, and Kenya and for patients with cancer of various organs or cirrhosis of the liver, 736

## R

- Radiation therapy and cyclophosphamide, in the treatment of hemangioendothelioma with disseminated intravascular clotting, 364  
Radiotherapy  
  and adjuvant chemotherapy, altered pattern of metastasis following treatment of Ewing's sarcoma with, 1051  
  radical, major surgery after, 314  
  total lymphoid, of patients with Hodgkin's disease, effect of prior splenectomy on hematologic tolerance during, 471  
Reticulosis, histiocytic medullary, associated with cytomegalic inclusion disease, 659  
Reticulum cell sarcoma  
  of bone treated by bacterial toxin therapy alone or combined with surgery and/or radiotherapy (47 cases) or with concurrent infection (5 cases), end results in, 524  
  primary, of liver, 1489  
  to acute leukemia, transformation of, 579  
Rhabdomyosarcoma  
  embryonal, of the middle ear, 943  
  of the middle ear and mastoid, 29  
Rib, cartilaginous tumors of the, 794

## S

- Salivary gland mixed tumor, human, a cell line from a, 403  
Salmonella typhimurium mutants, surface components of, tumor hemorrhagic properties of, 217  
Sarcoma(s)  
  human, myxovirus in, electron microscopic observations on structures resembling, 1449  
  Kaposi's, lymph nodal, and chronic granulocytic leukemia, associated with a hepatic nodule simulating Hodgkin's disease, 1419  
  Kaposi's, vasoactive substances in, 233  
  osteogenic, of the somatic soft tissues, 1121  
  reticulum cell, primary, of liver, 1489  
  so-called alveolar soft part, electron microscopic evidence suggesting the myogenous derivation of the, 150  
Scans, brain and liver, in the evaluation of lung cancer patients, 362  
Schwannoma(s)  
  malignant, of the mediastinum, 1190  
  malignant, survival in, 720  
Spinal cord compression  
  by metastatic neoplasm, role of surgery in the treatment of, 558  
  in Hodgkin's disease, treatment of, 308  
Splenectomy, prior, on hematologic tolerance during total lymphoid radiotherapy of patients with Hodgkin's disease, 471  
Stomach, extramedullary plasmacytoma of, 562

- Superior mediastinal compression: a report of five cases caused by malignant lymphoma, 193
- Surgery  
and irradiation in the treatment of apical lung cancer, 1369  
and preoperative irradiation, combination of, in the treatment of cancer of the oropharynx, hypopharynx, and larynx, 759  
in the treatment of spinal cord compression by metastatic neoplasm, 558  
major, after radical radiotherapy, 314
- Sympathoblastomas, significance of catecholamine excretion in the follow-up of, 228

## T

- Teratomas of the ovary, an intense clinicopathologic study of 305, 343
- Testis of patients with prostatic carcinoma, testicular morphology and germ cell DNA synthesis in the, 919
- Thecoma and fibroma of the ovary, classification of, 434
- Thermoprofile as an early indicator of breast cancer response to hormonal therapy, 1379
- Thymoma, malignant, associated with myasthenia gravis, and evidence of extrathoracic metastases, 823
- Thyroid, carcinoma of the, frank papillary and occult sclerosing, nuclear DNA content of, 902
- Tissue(s)  
liver, kidney, and tumor, from patients with renal carcinoma, lysosomal enzyme activity in, 278  
somatic soft, osteogenic sarcoma of the, 1121
- Tongue, cancer of the—A study of the regional lymph node spread, 38
- Tumor(s)  
adenomatoid—Fine structural evidence for a mesothelial origin, 109  
associated multiple carcinoid, of the ileum, and carcinoid-islet cell tumor of the duodenum, 910  
autologous (chondrosarcoma), immune reactions of a patient to, 782  
brain, human, aldolase isozyme patterns of, 223  
Brenner—A clinicopathologic study of 57 cases, 332  
Brenner, fine structure of the, 1482  
Brenner, proliferating, 687  
carcinoid-islet cell, of the duodenum, and associated multiple carcinoid tumors of the ileum, 910  
carcinoid, of the vermiform appendix, with Cushing's syndrome, 681  
cartilaginous, of the ribs, 794  
cells, circulating murine, bioassay of—A comparison between intravenous and intramuscular inoculation on tumor incidence, 56  
cells, in vitro, syngeneic normal cells mixed with, facilitation of tumor growth by, 897  
clear cell, benign ("sugar tumor"), of the lung, 712  
endodermal sinus, of the vagina—Report of a case with 7-year survival and literature review of so-called mesonephromas, 1231  
Ewing's, on the origin of, 257  
experimental, systems, experiences with lymphocyte immunotherapy in, 771  
gingival granular cell (congenital epulis), ultrastructural observations on a, 674  
hemorrhagic properties of surface components of *Salmonella typhimurium* mutants, 217  
human salivary gland mixed, a cell line from a, 403  
intra-abdominal desmoid, 1041  
mixed mesodermal, and carcinosarcomas, of the ovary, 207  
multiple primary, including bilateral breast cancers in a man with Klinefelter's syndrome, 1476  
of the liver, primary malignant, 7  
papillary serous, of the ovary, electron microscopic study of, 1455  
primary, regression of pulmonary metastases following irradiation of—Renal adenocarcinoma, 936  
salivary gland, in the parotid gland, submandibular gland, and the palate region, 1415  
salivary gland, role of myoepithelial cells in the development of, 1255  
sinus, extragonadal endodermal (yolk sac), of the pelvis, 391  
solid, hybrid cells in, 455  
Wilms', maturation of, effect of irradiation on the, 812

## U

- Ureter, morphological changes in the, in cases of bladder carcinoma, 1267

## V

- Vagina, endodermal sinus tumor of the—Report of a case with 7-year survival and literature review of so-called "mesonephromas," 1231
- Vascular invasion in Hodgkin's disease, further observations on the biologic significance of, 1
- Vincristine  
and actinomycin D, combined, in the treatment of patients with cancer, 613  
prednisone, and daunomycin, in acute leukemia of childhood, 602
- Virus, Epstein-Barr, in Hodgkin's disease, elevated antibody titers to, 416

## W

- Wilms' tumor, maturation of, effect of irradiation on the, 812

## X

- Xenon-133, regional pulmonary function in metastatic carcinoma to the lung studied with, 460

## Y

- Yolk sac tumor, extragonadal endodermal sinus tumor, of the pelvis, 391
